- Passed 1<sup>st</sup> level Japanese Proficiency Exam – (資格一日本語能力検定一級)

**Personal**

Together, we have 18 years of experience living in Japan, the majority of which we were working in a professional setting that required that we read, write, and communicate in the Japanese language, therefore developing a natural understanding of the words and grammar used in business Japanese. We are both happily married to Japanese wives. Dwaine has 3 children and Michael has 4 children. Our wives help out with difficult to read characters (faded, obscure, handwritten etc.) and vague grammar structures.
